

# BISHOP JUSTUS SCHOOL

BAUDER TOTAL GREEN ROOF SYSTEM WITH SEDUM BLANKET

Bishop Justus Church of England School is a visionary building with 43 connecting different roof areas comprising flat, pitched and barrelled roofs. A green roof was installed on this 3 storey £26 million project as the school was built on the greenbelt area of Bromley Common and they wanted to replace the green space lost to the footprint of the building. EJ Roberts Roofing Limited installed 600m<sup>2</sup> of sedum blanket daily under a strict schedule to ensure the project was delivered on time.
