

EBLEY MILL COUNCIL OFFICES

INTENSIVE GREEN ROOF

As a council that actively promotes its environmental policies, the refurbishment of Ebley Mill Council Offices required an alternative to the traditional felt roof.

Bauder's Intensive Green Roof System provided robust waterproofing beneath a combination of hard and soft landscaping, acting as a visual representation of the environmental views of Stroud District Council, views further supported by achieving the Green Apple Award for 'Britain's Greenest Council' in 1997.

"The Ebley Mill roof garden is a real gem. Tucked away, almost out of sight, it is a tranquil oasis. Its thoughtful design makes it pleasant to step outside, even on a cold winter's day"
David Marshall, Public Relations Officer, Stroud District Council.
