

THE STRADA

BAUDER BUILDING BOARD

Project	The Strada
Investor	Strada Development
Place	Edinburgh
Area Size	9,5000 m ²
Architect	Yeoman McAllister
Contractor	TQR Limited

APPLIED PRODUCTS

Bauder Thermofol PVC Single Ply System provides a strong, versatile solution ideal for both mechanically fixed or adhered roofing projects. The product has a high tensile strength of $\geq 1100\text{N}/50\text{mm}$ and is reinforced with a pre-coated polyester cross weave, making it resistant to tears and punctures and is UV resistant.

THE STRADA

Situated just 3 miles from the centre of Edinburgh, The Strada is a modern housing development comprising one, two, three and four bedroom apartments, luxury penthouses and stylish townhouses. It incorporates several striking seven-storey buildings, featuring floor to ceiling windows, all arranged around attractive courtyards, tree-lined boulevards and large green open spaces.

Having worked together over a number of years on a portfolio of prestigious projects, Yeoman McAllister and Bauder have forged a very successful working relationship. As a result, Yeoman McAllister specified Bauder's high performance Thermofol PVC Single Ply roofing system to ensure reliable, fast track installation and superior durability.
