## **DECLARATION OF PERFORMANCE**

| No:   | 039694520084  |  |
|---|---|--|
| 1. Unique identification code of the product-type:  | Bauder JFRI Upstand Insulation<br>Grades EPS 200  |  |
| 2. Type, batch or serial number or any other element allowing identification of the construction product as required pursuant to Article 11(4) of the CPR:                | Bauder JFRI Upstand Insulation  |  |
| 3. Intended use or uses of the construction product, in accordance with the harmonised technical specification, as foreseen by the manufacturer:                          | EPS (uniform thickness) insulation with a 9mm<br>magnesium based board finish for use in vertical upstand<br>detail protection for inverted flat roofs                    |  |
| 4. Name, registered trade name or registered trade mark and contact address of the manufacturer as required pursuant to Article 11(5):                                    | Bauder Ltd<br>70 Landseer Road<br>Ipswich<br>Suffolk<br>IP3 0DH   |  |
| 5. Where applicable, name and contact<br>address of the authorised representative<br>whose mandate covers the tasks<br>specified in Article 12(2):                        | Not Applicable  |  |
| 6. System or systems of assessment and verification of constancy of performance of the construction product as set out in Annex V:  | AVCP System 3   |  |
| <ul> <li>7. In case of the declaration of performance of the construction product covered by a harmonised standard:</li> <li>name and number of notified body:</li> </ul> | British Board of Agrément;<br>BRE (RtF)<br>9mm magnesium board finish not covered by harmonised<br>standard. Third party material characterisation by CERAM<br>Ref:132179 |  |
| - performed:  | Reaction to Fire<br>Thermal Conductivity<br>Compressive Strength  |  |
| - under system:   | System 3  |  |
| - and issued:   | Test report on application  |  |

## **Declared Performance**

| Essential Characteristic                       | Performance  | Harmonised technical<br>standard |
|--|--|----------------------------------|
| Reaction to Fire                               | Euroclass E  | BS EN 13501-1:2007               |
| Durability of RtF against ageing / degradation | Fire performance of EPS does not deteriorate with time | BS EN 13163:2012                 |
| Reaction to fire (9mm board)                   | A1 Non-Combustible                                     | BS EN 13501-1:2007               |
| Thermal Conductivity - Declared                | 0.033W/mK  | BS EN 13163:2012                 |
| Thermal Resistance                             | See table 3  | BS EN 13163:2012                 |
| Compressive Strength at 10% deformation        | 200 kN/m <sup>2</sup>                                  | BS EN 12086:2013                 |
| Dimensional stability                          | DS(70,90)1   | BS EN 1604:1997                  |
| Long-term water absorption by diffusion        | WD(V)3   | BS EN 12088:1997                 |
| Long-term water absorption by                  | WL(T)2   | BS EN 12087:1997                 |
| immersion                                      |  |                                  |
| Compatibility with other components            | On application   | -                                |

## **Thermal Resistance**

| Nominal Board<br>Thickness | Thermal Resistance m <sup>2</sup> K/W |
|----------------------------|---------------------------------------|
| 59                         | 1.50                                  |
| 84                         | 2.20                                  |
| 109                        | 2.95                                  |

The performance of the product identified in points 1 and 2 is in conformity with the declared performance.

This declaration of performance is issued under the sole responsibility of the manufacturer identified in point 4.

On behalf of the manufacturer by:

Q.6 Algate

Paul Felgate, R&D Manager
