

# GUNPOWDER PARK, LEE VALLEY

## BIODIVERSE GREEN ROOF

Set within Lee Valley Park, Gunpowder Park is 90 hectares of county park land developed through a multi-million pound regeneration by Lee Valley Regional Park Authority (LVRPA) to benefit people, wildlife and the arts.

The biodiversity green roof selected for the Centre incorporated a bramble finish offering both a practical and aesthetic finish, acting as a natural deterrent to vandals and more in keeping with its surroundings than a traditional mechanical method, such as barbed wire. The brambles also provide an undisturbed nesting site and source of food for birds and small mammals, further aiding the environmental aspects of this building.

<b>Client</b>	Lee Valley Regional Park Authority
<b>Project</b>	Gunpowder Park Visitors Centre
<b>Architect</b>	Randall Shaw Billingham
<b>Approved Contractor</b>	GRM Roofing Company Limited
<b>Area</b>	189m <sup>2</sup>
