

SAINSBURYS SUPERMARKET

SYSTEM AIRTECH – FLAME FREE BITUMINOUS WATERPROOFING

The roofing works at J. Sainsbury, Brighton, had to adhere to an extremely strict brief as the store was to remain open throughout. This meant that odour pollution had to be non-existent, as any offensive vapours could be taken in by the air conditioning units and subsequently into the store. Furthermore safety had to be of the highest standards.

Bauder's System Airtech addressed the brief with ease providing a safety conscious roofing programme. The roofing works were completed on time and within budget, furnishing the Sainsbury's store at Brighton with a system that is resilient, tough, long-lasting and easily capable of withstanding foot traffic and permanent loads of up to 2000Kg/m²
