

## FIRST LONDON BSF SCHOOL GREENED BY BAUDER

### MICHAEL TIPPETT SCHOOL, LONDON

The Michael Tippett School is the first in London to be completed under the Government's Building Schools for the Future (BSF) programme. Designed by London Eye architect Marks Barfield, the £7m secondary school designed for students with profound and multiple learning difficulties was completed in February 2008. In total, 2,400m<sup>2</sup> of Bauder roofing and 1,800m<sup>2</sup> of sedum blanket were delivered and installed on time and within budget. The school opened in record time only 9 months after work started and is a credit to the close working relationship of the architect, delivery team and the school itself.
