

BAUDER ROOF LORD GREY SCHOOL WITHOUT INTERRUPTING LESSONS

LORD GREY SCHOOL, MILTON KEYNES

Lord Grey School opened in 1973 as a community comprehensive amalgamating two other schools. The refurbishment brief from the client was for a durable system that would eliminate the continual ponding water whilst causing minimal disruption to the day to day running of the school. This led to the selection of the Bauder BTRS DUO system that incorporated laid to falls insulation to eliminate the ponding water. The roofing contractor, Boothville Roofing Limited, ran the 3000m² roofing programme uninterrupted over a six month period during term time with pupils remaining in residence.

NATIONAL ROOFING AWARDS 2008 FLAT ROOFING ALLIANCE BEST REFURBISHMENT ROOF – RUNNER UP

"Very neat job, did well to keep working through use of school with good attention to Health and Safety and liaison with the school".
