

COST EFFECTIVE ROOF FOR RECYCLED PAPER MILL

Shotton Paper Mill, Deeside

Set in the picturesque district of Deeside in the county of Flintshire, Shotton Paper Mill makes recycled paper from all paper collected within the Crewe and Nantwich Borough. The energy saved at the mill is the equivalent to turning off 12 light bulbs in every house within the borough each year, thus reducing CO2 emissions by 118,000 tonnes per annum which equates to saving 300 million car miles per year.

The system installed at Shotton Paper Mill provided a cost-effective waterproofing system without compromise. Bauderflex is a leading and trusted brand name in advanced torch-applied waterproofing materials. With more than a hundred years of product research and constant use in all conditions has resulted in a highly versatile and sophisticated roofing solution.
