

## HEALTHY ROOF FOR HEALTHY LIVING

### WESTMINSTER ACADEMY SPORT'S HALL, LONDON

Westminster Academy has to be one of the most inspirational fitness venues within the London Borough's vicinity. Providing education for 1,175 pupils, including a new post-16 intake and accommodation for 128 staff, the Academy continually liaised with the local community in order to accommodate their needs of the new facilities that remain open after school hours so that the local community can take advantage of the new amenities.

The Bauder Extensive Green Roof System on the Academy Sports Hall and Dance Studio compliments the building's function perfectly, acting as a visual reminder to both its users and onlookers alike that the health of the environment is of equal importance too, and just like our own wellbeing, it is up to us to look after it, ensuring a healthier and longer term future.
