

## BAKOR COMPLIMENTS BEETHAM TOWER

### HILTON HOTEL, PODIUM ROOF, MANCHESTER

The 48 storey Beetham Tower at the Hilton Hotel has become an iconic landmark of the town and boasts being the tallest building in Manchester and comprises 218 premier apartments and the 279 room five star Hotel.

To compliment the magnificent tower there is a lower section with a 2000m<sup>2</sup> podium roof, to which the Bauder Bakor System was installed. The Bakor system with its method and sequencing of application makes it cost effective against other apparently more economic waterproofing systems. Fully protected and subject to normal service conditions, it will remain waterproof to water and water vapour for the design life of the structure.

<b>Client:</b>	Hilton Hotel Manchester
<b>Specifier:</b>	Ian Simpson Architects
<b>Approved Contractor:</b>	Coverite
<b>Roofing System:</b>	Structural Waterproofing Bakor System
