

GREEN COUNCIL INSTALL ROOF TOP GARDEN

EBLEY MILL COUNCIL OFFICES, STROUD

Ebley Mill Council Offices, Stroud are based in an old water mill where being as environmentally friendly as possible is a firm belief of everyone who works there. This very strong policy led to the Council achieving the Green Apple Award as 'Britain's Greenest Council' in 1997. It seemed only natural that when roofing works had to be undertaken at the mill an alternative to a traditional felt roof was sought and the selection of a Bauder Intensive Green Roof System proved to be the ideal option. With a robust waterproofing system beneath a landscaped finish of turf and flower beds, Stroud Council not only had their visual testimony, but a roof garden that could be used within their everyday working lives.

"The Ebley Mill roof garden is a real gem. Tucked away, almost out of sight, it is a tranquil oasis. Its thoughtful design makes it pleasant to step outside, even on a cold winter's day."

David Marshall Public Relations Officer, Stroud District Council.
