

BAUDER STRIPES WATERPROOFS WAREHOUSE

RIDGEONS WAREHOUSE, SAFFRON WALDEN

Approached by Wilby and Burnett due to a proven work relationship, Bauder was asked to provide a roofing solution for the 10,000m² Ridgeons Warehouse. However, strict budget constraints dictated that the system be a single ply membrane owing to their practical nature, quick installation time and cost effectiveness. Bauder SL500 Stripes System was selected as its technology ensures that overlaying an existing waterproofing is not a problem, even in areas containing trapped moisture. The special Stripes finish to the underside of the membrane allows any vapour pressure to dissipate and therefore remove the potential for surface blistering.

"Bauder SL500 was the perfect system for a project of this nature. The easy application of a single layer product means no disruption to the existing clients, and allowed works to be carried out while the building was still occupied. It also alleviated any need for upgrading the lightweight metal decking, keeping costs down to an absolute minimum."

Robert Woolston, Bauder

Client:	Ridgeons
Specifier:	Wilby and Burnett Chartered Surveyors
Approved Contractor:	J and H Roofing Limited
Roofing System:	Bauder Stripes System
	Total System Build Up 9mm
	Total System Weight 9.4kg/m ²
