

## REGENCY HOMES GET BAUDER MAKEOVER

### REGENCY HOMES, GLASGOW

Regency Homes, Glasgow is a modern development comprising of luxurious apartments that are set out to combine modern technology with robust materials, both internally and externally.

The roofing works at the development had to be installed on a timber deck, dictating that the system needed to be lightweight and flame free. The Thermofol PVC met the criteria, combining a flame-free fast track system with robust and modern materials, which guarantee total waterproofing integrity. To enhance the roofs appearance, the light-grey membrane colour has been complimented by the use of matching accessories to achieve a seamless and eye-pleasing finish.
