

## NEW ROOF SCORES HOLE IN ONE FOR GOLF CLUB

### THE MOUNT WOLSELEY GOLF AND COUNTRY CLUB

Surrounded by idyllic Irish countryside, The Mount Wolseley Golf and Country Club offers a wide range of activity based and relaxation facilities. The new extension developments further enhance the facilities on offer. The building incorporates two roof levels. The overlooked lower roof needed to a lightweight, low maintenance, aesthetically pleasing and versatile so that it could be transformed into a green roof in the future. The higher level needed to withstand heavy foot traffic due to maintenance and engineering machinery. Additionally solutions had to be economically viable and covered by a robust guarantee.

Bauder's Single Ply System was selected with all products and workmanship guaranteed.
