# Introduction

## Your privacy

Bauder treats personal data collected while managing your job application in accordance with our Data Protection Policy. Information about how your data is used and the basis for processing your data is provided in our Job Applicant Privacy Notice, this is published to our website within the [Careers Section](#) or available upon request from the [HR Department](#).

## About us

Bauder is a leading international manufacturer of building construction materials for flat roofs. We provide our clients with a complete technical roofing solution and package from inception to completion, to meet their every requirement. Our service is centred upon our dedication to provide a waterproofing system that fully understands all the individual issues of any project and fully responds to the needs of the client.

Our flat roof systems are designed to provide a high quality, single source solution for every application and client need. Whether green roofing to bitumen membrane, and from hot melt to cold liquid applied, right through to BauderSOLAR PV panels, giving energy for sustainability.

Bauder flat roofs represent an industry leading commitment to deliver technologically advanced roofing products, which meet the diverse needs of the roofing industry in terms of budget, performance and function of the highest quality. The Bauder name is synonymous for quality, design and service.

Our people focused culture originates from a strong family ethos and the belief that our success is determined through our people, who are at the very heart of what we do.

## Fit to team and skillset drives our success

We place great attention to detail on recruiting the right person, team fit is as important to us as skillset and people join us for a career and not just a job. We have fun whilst we work and reward, recognise and develop the capabilities of our people. The commitment from all our people undoubtedly drives the high levels of business performance and success enjoyed today.

*'you work with friends not colleagues' (Area Technical Sales Manager)*

*'the Company really looks after you as a person' (Technical Administrator)*

*'there is a strong commitment to employees and sense of trust and fairness' (Manager)*

Would you like to be part of an extremely successful, team spirited business, with a motivated people driven culture? A business which focuses upon building your career, supporting and encouraging your development and fostering autonomy, ownership and accountability. We offer a highly competitive remuneration package and lifecycle of benefits, designed to protect you and your family. Our accolades validate our employer credentials, we are the first in our sector to be awarded the prestigious Investors in People Platinum award and are proud to be one of the highest IIP accredited organisations in the UK.

# Job Specification

Oct 2024-v1

## Objective:

Working within the Technical department reporting to the Design Technician Supervisor, this role offers an exciting and challenging opportunity to provide support to the business through the production of technical design drawings, checking and processing of technical documentation and production of technical calculations within a specialised environment.

Training will be provided, covering wind loads for the purpose of confirming enough fixing strength of our waterproofing systems, drainage calculations confirming the required number of Bauder outlets, thermal performance confirming insulation performance, insulation design, PV design and production of technical detail drawings.

The ideal candidate will be technically minded and originate from a Construction Industry/Architectural background, preferably with a flat roof waterproofing system bias. It is essential to have working knowledge of CAD, with strong computer literacy and the ability to understand architectural drawings, along with a keen eye for detail and the ability to communicate well at all levels.

## Outline of Responsibilities/duties

- Produce, check and process incoming design drawing requests, technical documentation and technical calculations.
- Liaison with clients and Bauder Area Technical Managers.
- Detailed overview of flat roof waterproofing system construction.
- Detailed overview of Industry Codes of Practice & Building Regulations.
- Detailed overview of Part L & Thermal Calculations.
- Team orientated approach – work as part of a busy, professional, integral team.
- Dealing with telephone and email enquiries.
- Understand specification construction, survey reports and construction drawings.
- General administration.

Any other duties deemed necessary to meet the demands of the department and business, including:

- Assist within other areas of the Technical Department during any staff shortage.
- To be flexible to work additional hours as and when the need arises.
- To be flexible to work off site/attend meetings as required.
- Provide day to day support within the Department as the business demands.

## Key attributes:

- Working knowledge of waterproofing systems and their construction advantageous.
- Basic level of CAD is essential.
