Flat Roof Technician

POSITION TYPE: Full time, permanent

LOCATION: Ipswich, Suffolk

Introduction

Your privacy

Bauder treats personal data collected while managing your job application in accordance with our Data Protection Policy. Information about how your data is used and the basis for processing your data is provided in our Job Applicant Privacy Notice, this is published to our website within the [Careers Section](#) or available upon request from the [HR Department](#).

About us

Bauder is a leading international manufacturer of building construction materials for flat roofs. We provide our clients with a complete technical roofing solution from inception to completion, to meet their every requirement. Our service is centred upon our dedication to provide a waterproofing system that understands the individual needs of the client and the project.

Our flat roof systems are designed to provide a high quality, single source solution for every application and client need. Our portfolio embraces waterproofing systems, through to green roofs for supporting the local environment, to solar PV systems giving energy for sustainability, and blue roofs to attenuate stormwater and negate localised flooding.

Bauder is committed to delivering technologically advanced roofing products, which meet the diverse needs of the roofing industry in terms of budget, performance and function. The Bauder name is synonymous for quality, design and service.

Our people focused culture originates from a strong family ethos and the belief that our success is determined through our people, who are at the very heart of what we do.

Fit to team and skillset drives our success

We place great attention to detail on recruiting the right person, team fit is as important to us as skillset and people join us for a career and not just a job. We have fun whilst we work and reward, recognise and develop the capabilities of our people. The commitment from all our people undoubtedly drives the high levels of business performance and success enjoyed today.

'you work with friends not colleagues' (Area Technical Sales Manager)

'the Company really looks after you as a person' (Technical Administrator)

'there is a strong commitment to employees and sense of trust and fairness' (Manager)

Would you like to be part of an extremely successful, team spirited business, with a motivated people driven culture? A business which focuses upon building your career, supporting and encouraging your development and fostering autonomy, ownership and accountability. We offer a highly competitive remuneration package and lifecycle of benefits, designed to protect you and your family. Our accolades validate our employer credentials, we were the first in our sector to be awarded the prestigious Investors in People Platinum award and are proud to be reaccredited in 2024 for the third time at platinum level as well as achieving the 'We invest in Wellbeing' Gold award on our first attempt.

Job Specification

October 2024—v1

Objective:

Working within the Technical department reporting to the Head of Technical, this role offers an exciting and challenging opportunity to provide support to the business through the analysis of specifications against client and technical requirements such as material compatibility & suitability, analysis of survey reports, checking for inconsistencies in proposals, production of technical calculations and production of technical detail drawings.

Training will be provided, covering wind loads for the purpose of confirming enough fixing strength of our waterproofing systems, drainage calculations confirming the required number of Bauder outlets, thermal performance confirming insulation performance and production of technical detail drawings.

The ideal candidate will be technically minded and originate from a construction industry/architectural background with a flat roof waterproofing system bias, have working knowledge of CAD, computer literacy and the ability to understand architectural drawings, with a keen eye for detail and the ability to communicate well at all levels are essential.

Outline of main responsibilities/duties

- Produce, check and process incoming technical specification requests, detail drawing requests, technical documentation and technical calculations
- Checking of all incoming specification types produced for all waterproofing systems, against suitability and compatibility
- Checking of roof survey reports
- Liaise with clients and Bauder Area Technical Sales Managers providing technical advice
- Detailed overview of flat roof waterproofing system construction
- Detailed overview of Industry Codes of Practice/Building Regulations
- Detailed overview of Part L and thermal calculations
- Team orientated approach - work as part of a busy, professional, integral team
- Dealing with telephone enquiries
- Checking and understanding specification construction, survey reports and construction drawings
- General administration

Any other duties deemed necessary to meet the demands of the department and business, including:

- Assist within Technical Department when staff shortage.
- To be flexible to work additional hours as and when the need arises.
- To be flexible to work off site/attend meetings as required.
- Provide day to day support within the department as the business demands
