

TECHNICAL DATA SHEET

Bauder LiquiTEC System

LiquiFIBRE

DESCRIPTION

LiquiFIBRE is a cold liquid applied fast curing waterproofing resin containing fibre reinforcement. This is for use when detailing awkward shapes or inaccessible areas where the use of LiquiDETAIL with Bauder 110g reinforcement fleece is impractical. It is applied in 2 coats, with the first coat being allowed to cure before application of the second coat. The product is a PMMA based resin and requires the addition of catalyst to trigger curing. It is solvent, isocyanate and halogen free, minimizing its environmental impact.

TECHNICAL DATA:

Colour:	Approx. RAL 7031 blue grey
Coverage:	Minimum 3 Kg/m ² (2 coats of 1.5Kg/m ²)
Pack size:	10Kg re-sealable drum
Application temperature:	0°C to 40°C
Application method:	Roller / brush
Rainproof time:	30 minutes approx.
Overcoat / traffic time:	45 minutes approx.
