

TECHNICAL DATA SHEET

Bauder ALU250 Inspection Chamber System

DESCRIPTION

The ALU250 Inspection Chamber is fabricated from a perforated aluminium sheet with opening/lockable lid and is used for intensive and extensive soft landscaping, as well as ballasted inverted roofs. A simple on-site modification allows the unit to be used over outlets that are located close to wall or kerb abutments.

The Inspection Chamber is suitable for landscaping depths of less than 100mm. Where landscaping is deeper than 100mm, the 50mm or 100mm height adaptors can be added as necessary to achieve the required height to be level with or slightly proud of the surrounding landscaping.

TECHNICAL DATA:

ALU250 Inspection Chamber

Material: 1.5mm aluminium (2mm lid)
Length: 250mm
Width: 250mm
Height: 100mm
Weight: 950g
Colour: Silver grey (RAL 9006)

ALU250 Height Adaptor 50mm

Material: 1.5mm aluminium
Length: 250mm
Width: 250mm
Height: 50mm
Weight: 250g
Colour: Silver grey (RAL 9006)

ALU250 Height Adaptor 100mm

Material: 1.5mm aluminium
Length: 250mm
Width: 250mm
Height: 100mm
Weight: 450g
Colour: Silver grey (RAL 9006)
