

PRODUCT DATA SHEET

BauderTEC KSD Mica

Air and Vapour Control Layer (AVCL)

A technically advanced, robust, self-adhesive SBS elastomeric bitumen air & vapour control layer, with a mica finished upper surface to allow easy bonding of insulation using the specified Bauder Insulation Adhesive. One side lap features an 80mm wide glass fleece along the underside, and a 100mm laminated strip above. The other side lap has a thermofusible film on the top surface. This arrangement ensures that laps are heat sealed using hot air or gas torch as appropriate to extrude a bitumen bead, thus ensuring waterproofing integrity.

Intended Use

This product is suitable as an air & vapour control layer for installation over certain existing roof systems and all common deck substrates including profiled metal, following application of Bauder SA Bonding Primer, or Bauder Activator-Primer.

SURFACE FINISHES

Top:	Mica
Bottom:	Peel off release film covering self-adhesive bitumen
