

SYSTEM SUMMARY

LiquiTEC Balcony, Walkway and Terrace System

Liquid applied cold roof covering system - cold applied

Cold liquid applied balcony, walkway and terrace system suitable for new build and refurbishment applications, and can be used in inverted roof scenarios. A range of colours are available for the hard wearing granular quartz finish. Produced without the use of solvent, isocyanate and halogens, this system offers an environmentally friendly solution without compromising on durability and quality.

Product	Description	thickness	weight
1 LiquiFINISH	Fast curing final coat, used to seal and bind the quartz wearing course with the desired colour. Solvent, isocyanate and halogen free.	1mm	0.65
2 LiquiPAVE RF	Self-levelling surface layer with hard wearing crystal quartz aggregate.	4mm	4
3 LiquiBALKON	Fast curing waterproofing resin, for use on the main flat area of the LiquiTEC Reinforced Balcony, Walkway & Terrace system, beneath the LiquiPAVE RF Deck Floor Layer or other landscaping elements. It is a PMMA based resin that requires a catalyst and is solvent, isocyanate and halogen free.	2mm	3.11Kg/m ²
System Build up		7mm	7.76Kg/m²
